Here is a little information on services that we recommend:

**Furminator**

Love your pet but not the shedding? That's why there is Furminator. Shedding is natural and there's no way to eliminate it. But, there is a better way than constantly vacuuming and scrubbing hair off your floor, furniture, clothing and car seats

**Nail Dremel**

If you are bothered by the sharp edges of freshly trimmed nails; have people in your home that you are concerned about being scratched due to medical conditions; or have young children; dremeling may be for you. We use a high speed file to round the edges of nails so they are smooth.
